Gold, 77%, Sep 2026

Nasscom FutureSkills Prime: Acquiring Data
Gold, 92%, Sep 2026

Nasscom FutureSkills Prime: Exploratory Data Analysis
Silver, 60%, Sep 2026

PROJECTS

Student Hostel Management System (ReactJS, MySQL)
- Web application to manage residents, room allocation, fees and complaints.
- Designed the relational data model and role-based admin and student screens.

CampusConnect (ReactJS, JavaScript, HTML, CSS)
- Campus community platform for announcements and events with a mobile-first interface.
- Built a reusable component library for consistent screens.

Customer Churn Prediction System (Data Analysis)
- Machine learning workflow to estimate customer churn risk.
- Cleaned data, engineered features and compared classification models using precision, recall and F1.
